As there has been considerable talk in ome quarters that former Chief Byrnes may be selected by the new Police Board as pief, it may be well to call attention to the diarrier barrier against any such possibility. I provides expressly that the first Chief of folice must be selected by the Board from the Chief of Police, the Superintendent Police, the Deputy Chief of Police and Police, the Deputy Superintendent of Police, and by could not put Byrnes in the place, for a reason that the charter says that any soon who shall have been a member of force and "have resigned" shall not be populated "except upon the concurring so of all the members comprising the countries of the Central Labor Union."

Some ten years ago Hard Times were comparatively unknown. Under an easy rule the people were fast becoming slothful and prodigal. The great School of Life needed a president. Experience, that best and greatest of educators, took the

place. He sought to reorganize the huge lowest class and to instruct them in what they most needed-a knowledge of the use and misuse of their money. This Finance Class was a difficult one—the lesson was hard, the method drastic. First the pupils grumbled, then they mutinied, finally they starved. Want and Misery, Poverty and Hunger, taught them the rudiments-Practicality gave them the finishing points. At length they were successful. The mighty lesson of Economy

was learned. A better understanding of its branches, social, domestic and political, was had. And now for the Moral, for every Allegory must have one: Learn the lesson easily. Economy means prosperity, and prosperity indicates progress every time. We are the coadjutors of old Prex. Experience himself. "BUY THE BEST GOODS FOR THE LEAST MONEY"

was his favorite maxim. It is yet and our credit system will prove to you its wisdom. We want to help you succeed in life. Will you let us?
